SUMMARY

Results-oriented Software Engineer with **1.5 years of experience** building and optimizing web applications. Proven ability to collaborate, enhance front-end performance, and streamline **UI development**. Proficient in **data structures and algorithms**, ensuring efficient and scalable software solutions. Passionate about creating user-friendly and high-performing applications.

SKILLS

Programming Languages   HTML5, CSS3, SCSS, SASS, JavaScript, TypeScript, ES6
Frontend Frameworks   React, Redux, Redux Thunk, React hooks, Chart.js
UI Libraries   Material UI, Material react table
Version Control   Git, github, gitlab
Issue Tracking   Jira
Tools   VS code, Babel, Webpack

EXPERIENCE

Software engineer   Jul '23 — Present
Nirvana Solutions Pvt. LTD, Remote   gurgaon, India (Remote)
- **Standardized tables**: Created a reusable UI component, reducing dev time by 50% and ensuring consistency across the website. Implemented using **React, SCSS, and Typescript** to ensure optimal performance.
- **Cross-team Collaboration:** Collaborated with cross-functional teams to design and develop user interfaces for web applications, ensuring a seamless user experience.
- **Boosted Front-End by 3x**: Fixed the architecture by optimizing the workflow of API calls on the front-end, resulting in improved performance. Leveraged **Redux** for state management.
- **Streamlined UI Development:** Created a reusable resizer component, enabling efficient resizing of side and main panels, using **React, MUI icons, SCSS, typescript, and Chartjs.**

Software Engineer trainee   Jan '23 — Jun '23
Nirvana Solutions Pvt Ltd   Gurugram, India
- **Tech-Savvy Developer**: Maintained high code quality through rigorous testing. Have hands-on experience of tools such as **JIRA, AWS Workspace, Git, and GitLab**.
- **Enhanced Data Management**: Leveraged **Redux** to implement a centralized data store for critical application data, improving data accessibility and potentially reducing page load times.

EDUCATION

B.tech in Computer Science, GLA university (GPA: 8.08/10)   Aug '19 — May '23
                                                                                                                        Mathura, India

PROJECTS

Samsara, Nirvana Solutions   May '24 Present
- **Empowering Investors:** Developed a comprehensive **trading and portfolio management application** for HNIs, individual investors, and fund managers. Enabled seamless trading, detailed PNL reporting, and real-time portfolio tracking through intuitive UI and efficient data handling.
- **Utilized React, Redux,** and **Infragistics Grid** to ensure a robust, scalable, and user-centric platform.
- **Tech Stack: Frontend**

Publisher, Nirvana Solutions   Mar '23 — May '24
- **Empowering Users**: Built a document creation platform to easily design professional reports and fact sheets. Implemented drag-and-drop and rich editing tools (text, images, charts) for a user-friendly experience.
- **Implemented React, TypeScript, HTML/SCSS and ChartsJS** to enhance the platform's scalability and performance.
- **Tech stack- frontend developement**

Connectify Link   May '24 Present
- **Social Media Management Simplified**: building a central platform to manage multiple social media accounts (Facebook, Instagram, etc.) from one place, saving users time and effort. Empowered users to achieve omnichannel content distribution by enabling them to share a single post across all connected platforms with just a click.
- **Utilized React, Redux, and Material UI** to streamline the social media management process and enhance user engagement.
- **Tech stack- MERN stack**
